

WASTEWATER SYSTEM IMPROVEMENT

CW-334168-02

Wastewater Treatment Facility Motor Actuated Valve Replacements

Public Works Department
Whitefield, NH

Grant Amount \$100,000.00

Funds Provided by

The American Rescue Plan Act of 2021

Construction of upgrades and improvements to the Wastewater Treatment Facility, in Whitefield, NH were financed by the American Rescue Plan Act of 2021.

This project will replace actuators and other incidental items installed as part of a comprehensive upgrade to the Town of Whitefield's wastewater treatment facility. This will allow the Town to meet its effluent permit limits and reinstate compliance.

The American Rescue Plan Act of 2021 is administered by the NH Department of Environmental Services with joint funding from the Environmental Protection Agency.
